Intelli-Flo pad maintains consistent temperature

## Leading Motorised Cold Therapy

Breg's Polar Care Kodiak is the most convenient and versatile offering in the Breg Polar Care line. Its easy to use, compact design makes it great for clinic, hospital and home use. With the addition of ice and water, patients will enjoy 6-8 hours of effortless cold therapy.

- Physicians and patients benefit from reduced pain and swelling
- Whisper-quiet pump technology allows patients to rest and recover
- Durable, powerful construction provides peace of mind
- Battery pack option can help patient compliance for patients on the go

- Intelli-Flo® technology meets the unique demands of the treatment area with fine tuned temperature control

*As with other cold treatment modalities, such as ice or gel packs, motorised cold therapy can cause serious injury if improperly used. Follow the operating instructions on the unit and be sure to read the product insert prior to use by the patient.*
